

# Los Altos Solid Waste Disposal Summary and Trends

- Waste removed by Mission Trails Waste Systems has remained fairly constant

Waste removed by non-Mission Trails haulers has increased. This is primarily construction debris.

- Percent of waste diverted from the Landfill has remained fairly constant at 71%.

- Landfill waste generated per person per day has dropped to 2.8 pounds per person/day, a 30% reduction. This is primarily due to recycling and composting diversion.
